

“DISCOVER CANTABRIA”

CARDS TYPE

10 Municipality cards

Game cards

10 Gastronomy cards

10 Famous people cards

10 Monuments cards

10 Other resources cards

Each Municipality card is related to four game cards.

Number of players: 2-5

GAME PROCEDURE

The objective of the game is to recognize the different characteristics of the municipality of the Autonomous Region of Cantabria.

The Game cards have a QR code, that code only works when you put all the cards of the municipality together.

There are two decks, one with the municipalities and another with the game cards. One participant distributes the municipality cards to start the game, one per person. And then each player gets 4 game cards. They have to search for the ones that make the QR code work, so they must take and throw cards from the deck by turns and try with their QR code reader until they find the four correct ones to win.
